**To: Association Members and Associate Members**

**From: Reggie Holt, President**

**Date: May 3-7, 2010**

**Subject: Meter Conference and School**

**Place: Wilderness at the Smokies, Sevierville, TN**

I would like to take this opportunity to invite all of you to the 60<sup>th</sup> Annual Meter School and Conference to be held May 3-7, 2010, in Sevierville, Tennessee. Through the joint efforts of the Mid-South Electric Metering Association and Pellissippi State Community College, we have come up with what we think will be a great conference.

The registration fee of \$225 covers course materials, banquet, refreshment breaks, and meter school support. If it becomes necessary for you to cancel prior to April 16, your registration fee will be refunded minus a \$25 processing fee. On or after that date, refunds will not be issued. If you have any questions, call (865) 694-6416 or email mhudson@pstcc.edu.

The textbooks that will be used at the school are: "Handbook for Electricity Metering" and "Handbook for Electricity Metering Appendices" (most current editions). Those who have access should bring them to the school.

The group photo will be on Tuesday, May 4, at 9:30 a.m.

This year a business Luncheon will be held on Wednesday, May 5, from 11 a. m. to 12:45 p.m. The regular business meeting, awards and recognition, as well as a drawing for door prizes, will be conducted during this luncheon. The attendance of everyone at this year's school is encouraged! Please make an extra effort to attend.

**Group 1** – Subject matter for this group is planned for newcomers in the field of revenue metering. Classes include basic mathematics, AC and DC electricity, meter components and construction, with an introduction to instrument transformers and polyphase meters.

**Group 2** – This group is designed for those who have been in metering for a number of years and have a firm knowledge of single phase metering. Classes include meter theory, circuitry of different meters, instrument transformers and their rating factors and burdens, planning connections, and general polyphase testing.

**Group 3** – This group covers such subjects as data acquisition, solid state metering, computer orientation and new trends in revenue metering. These subjects are extremely important for the experienced metering person/manager to stay abreast of the rapidly changing field of metering

**Group 4** – This group is reserved for vendors to present new products, provide software training, expand on their AMR products, etc.

**A detailed daily program is located on our web site, [www.msema.com](http://www.msema.com).**

Again, I want to invite you to attend. The conference promises to be very informative and educational which will help you do your job better and safer.

Conference hotel information is:

**Wilderness At The Smokies**  
**1424 Old Knoxville Highway**  
**Sevierville, TN 37862**

**Phone: 877- 325- 9453**

**Reservation: CONFERENCE ROOM RATE is \$110.00**  
**Room Block cutoff date: April 10, 2010**  
**(Don't wait!)**
